377 Omega is a consulting firm that provides a range of services for government and industry clients in support of intelligence and national security programs.

We combine our experience in the Executive Branch, Industry, and the Congress to help advance technology, programs, and policies to enhance our national and world security.

377 Omega's services range from traditional engineering, systems analysis, and independent assessments to business development and corporate strategy.

377 ΩMEGA - INTELLIGENCE AT YOUR FINGERTIPS

What is 377 Omega?

The impedance of free space
